

Moving Tips

Make sure there is a clear unobstructed path to all exits.

Remove cars from driveway or areas where the truck could park prior to the mover's arrival.

Clear off all furniture to be moved completely.

Certain pieces need the drawers emptied: nightstands, endtables, coffee tables, TV stands and all desks.

Toy chests should always be emptied.

Piano benches should always be emptied (No exceptions)

Because of the fragile nature of antiques, they should absolutely always be empty of everything.

If rain is likely on moving day or the day prior, please bring in all outdoor furniture or toys to provide a clean loading environment in the truck.

Large flower pots and flower boxes should be emptied of all soil.

If you choose to move some items and cartons yourself, do not place them where furniture is to be placed in the new house.

Pack all cartons to the top filling with paper if necessary to create a firm carton. Tape sufficiently as they will be stacked in the truck.

Label all cartons with magic marker in large printed letters, crossing out old writing.

Very Important

We at Merit Movers cannot move unpacked breakable items such as glass, marble, mirrors, paintings, lamps and lampshades, computers, and other small electronic and stereo components. These goods must be properly packed in order for us to move them safely for you.

If you choose not to pack them yourself, it is imperative that you notify us prior to your move so we can bring the proper materials to perform the packing, as our trucks do not generally carry extra packing materials on the day of relocation.
